

What a difference it has made. We take care of an elderly relative as well as we have very strange work hours. We were receiving an average of 8 to 12 call a day, from 8:00am to 9:00pm from different telephone marketing firms. Either their computers would call and put us on hold or hang up. This Telephone Privacy has made a difference with our family life, we now can sleep, relax, eat dinner and be a family without the telephone ring all the time. Please don't take the Indiana Telephone Privacy away or change it at all! It has been a God Send to us. I'll be glad to tell anyone how much of a change it has made in our lives. Susan Donovan
